

charge force battery

Made for OtterBox uniVERSE cases

USER MANUAL

Welcome

Thank you for purchasing the mophie **charge force battery** built for OtterBox uniVERSE cases. The **charge force battery** attaches to the OtterBox uniVERSE case, providing wireless charging capabilities, extending talk time up to 39 total hours* and web browsing up to 20 total hours*. The modular design lets you attach the battery whenever you need it most. Now you will be able to travel great distances and be the master of your own destiny, no longer bound by the limitations of your device's internal battery!

*Total hours are estimated by adding the mAh capacity of the **charge force battery** to that of an iPhone 6s Plus battery. The total hours you will receive depends on a variety of factors that are different for every user.

Package Contains

- charge force battery built for OtterBox uniVERSE cases
- Micro-USB cable
- Quick-start guide

Features

Here's a rundown of why your **charge force battery** built for OtterBox uniVERSE is so great:

- High-density, high-output battery attaches directly to the OtterBox uniVERSE case and connects to the installed iPhone, providing up to 39 total hours* of talk time or 20 total hours* of web browsing.
- Universal wireless charging is compatible with all mophie charge force accessories and Qi and other common wireless charging systems.
- Priority+ pass-through charging provides power to the iPhone in the OtterBox uniVERSE case before the charge force battery starts to recharge.
- Track battery power at a glance with the integrated four-light LED status indicator. You can keep tabs on charging status and current battery life. Know before you go!
- Rechargeable for over 500 full cycles. Our battery is built to last so you can do more, longer.
- Digital Power Management circuitry provides built-in short-circuit, overcharge and temperature protection. Safety First!

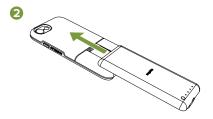

Compatibility

- The mophie charge force battery built for OtterBox uniVERSE has been designed to work only with OtterBox uniVERSE cases. Please do not attempt to use it with any other device.
 - If you experience any issues with charging your iPhone, ensure that the **charge force battery** is fully charged and check the FAQ section on this website.
- The mophie charge force battery built for OtterBox uniVERSE will charge wirelessly from any mophie charge force charger or any Qi-compatible wireless charger, and is also compatible with other wireless charging technologies, such as those at coffee houses, on airline flights, in furniture products with wireless charging, and in consumer vehicles that support wireless charging.

As always, no matter what device you have, carefully read through the Warning section in this manual and in the quick-start guide included with your **charge force battery** before using it.

Installing Your charge force battery

- Install your iPhone into the OtterBox uniVERSE case and remove the access plate on the back of the case.
- 2. Slide the **charge force battery** into the track rails in the OtterBox uniVERSE case.

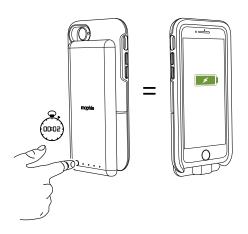

- 3. Slide the battery all the way up onto the case until the lock button clicks into place.
 - Make sure the battery's Lightning connector is inserted all the way into the port on the phone.

Charging Your Phone Using Your charge force battery IMPORTANT: Before using your **charge force battery** for the first time, fully charge it (so that pressing the charge status button lights all 4 status LEDs).

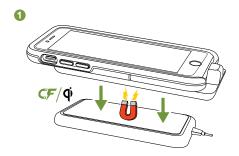

To begin charging your phone, press the battery's status button for 2 seconds.

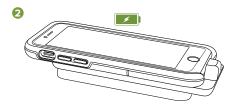

Charging Your charge force battery (Wireless)

Your **charge force battery** will charge wirelessly from mophie charge force mounts and all Qi-compatible wireless chargers, and can be wirelessly charged by most brands of wireless charging bases. It is also compatible with other wireless charging technologies, such as those used at coffee houses, on airline flights, in furniture products with wireless charging, and in consumer vehicles that support wireless charging.

 Place the charge force battery against the mophie charge force mount or on the wireless charging base to begin charging.

 Make sure that the charge force battery is centered on the charging base. (When charging from a mophie charge force mount the charge force battery will automatically align itself for a proper charge.)

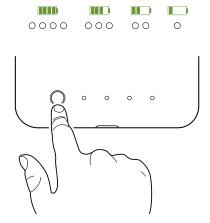

Charging Your charge force battery (Wired)

Use the supplied cable to connect your **charge force battery** to the charging adapter included with your iPhone or another USB wall adapter. Charging adapters with a 2A output or greater will yield the best results.

Checking Your *charge force battery's* Charging Status

Momentarily press the status button on your **charge force battery** and the status LEDs will indicate its charge level. Four LEDs means that the battery is fully charged, while one LED means that it's almost empty. Know before you go!

Taking Care Of Your charge force battery

- Keep your charge force battery dry and away from moisture and corrosive materials.
- Do not clean your charge force battery with harsh chemicals, soaps or detergents. Just wipe it with a soft, water-dampened cloth.

- Make sure the battery's USB port does not become contaminated with lint or other debris.
 Use a canned-air type of product periodically to ensure that the port opening is clear.
- Recharge your charge force battery once every three months when not in use. If you plan on putting it away, charge it for one hour first.

Warranty

At mophie, we are dedicated to making the best quality products we can. To back this up, this product is warranted for 2 years from date of purchase. This warranty does not affect any statutory rights that you may be entitled to. Keep a copy of your purchase receipt as proof of purchase. Be sure to register your product at mophie.com. Failure to register your product and/or provide proof of purchase may void the warranty.

Exclusions & Limitations

Except for the limited warranty expressly set forth or to the extent restricted or prohibited by applicable law, mophie expressly disclaims any and all other warranties express or implied, including any warranty of quality, merchantability, or fitness for a particular purpose, and you specifically agree that mophie shall not be liable for any special, incidental, indirect, punitive, or consequential damages for breach of any warranty of any type on any mophie product.

In addition to and without limiting the generality of the foregoing disclaimers, the limited warranty does not, under any circumstances, cover the replacement or cost of any electronic device or personal property inside or outside of the mophie product.

Warning

Read all instructions and warnings prior to using this product. Improper use of this product may result in product damage, excess heat, toxic fumes, fire or explosion, for which damages you ("Purchaser"), and not mophie IIc ("Manufacturer") are responsible.

WARNING! This product contains magnets. To reduce the risk of interference with other electrical equipment, consult your doctor and/or device manufacturer before using this product if you have a pacemaker or other implanted electrical device.

Before using your battery for the first time, fully charge it (so that pressing the charge status button lights all 4 status LEDs).

- Do not store device in high-temperature environments, including heat caused by intense sunlight or other forms of heat. Do not place device in fire or other excessively hot environments.
- Be cautious of excessive drops, bumps, abrasions, or other impacts to this device. If there is any damage to the device such as dents, punctures, tears, deformities, or corrosion due to any cause, discontinue use. Contact Manufacturer or dispose of it in an appropriate manner at your local battery-recycling center.
- Do not disassemble this device or attempt to re-purpose or modify it in any manner.
- For questions or instructions for the various ways to charge this device refer to the illustrations in the Charging your charge force battery sections of this user manual.
- Do not attempt to replace any part of this device.
- If this device is intended by Purchaser to be used by a minor, purchasing adult agrees to provide detailed instructions and warnings to any minor prior to use. Failure to do so is sole responsibility of purchaser, who agrees to indemnify Manufacturer for any unintended use/misuse by a minor.

- All products have gone through a thorough quality assurance inspection. If you find that your device is excessively hot, is emitting odor, is deformed, abraded, cut or is experiencing or demonstrating an abnormal phenomenon, immediately stop all product use and contact Manufacturer.
- Never dispose of batteries in the garbage. Disposal of batteries in the garbage is unlawful under state and federal environmental laws and regulations. Always take used batteries to your local battery-recycling center.
- Before storing your battery for an extended period of time, fully charge it (so that pressing the charge status button lights all 4 LEDs).

Legal

This product is meant for use only in conjunction with the appropriate device. Please consult your device packaging to determine whether this product is compatible with your particular device. Manufacturer is not responsible for any damages to any device incurred through the use of this product.

Manufacturer shall not in any way be liable to you or to any third party for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this product in conjunction with any device or accessory other than the appropriate device for which this product is designed. Manufacturer will not be responsible for any damages you or any third party may suffer as a result of misuse of this product as outlined above. If you are responsible for product use with an unintended device and damages result from such use, you agree to indemnify Manufacturer for any resulting injuries to any third part(ies).

IN NO EVENT WILL THE MANUFACTURER, DISTRIBUTOR OR OTTER PRODUCTS, LLC BE LIABLE FOR ANY INCIDENTAL, DIRECT, INDIRECT, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES (SUCH AS, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS, BUSINESS, SAVINGS, DATA OR RECORDS) RELATED TO THIS PRODUCT. EXCEPT AS STATED HEREIN, NO OTHER WARRANTIES SHALL APPLY.

This device complies with part 15 of the FCC Rules and RSS-Gen of IC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

CAUTION: To comply with the limits of the Class B digital device, pursuant to Part 15 of the FCC Rules, this device must be used with certified peripherals and shielded cables. All peripherals must be shielded and grounded. Operation with non-certified peripherals or non-shielded cables may result in interference to radio or reception.

MODIFICATION: Any changes or modifications of this device could void the warranty.
