Resound Wireless
Manual
Resound Wireless Instructions

1. **Introduction**
   Keep your music and calls easily within reach with the comfortable IFROGZ Resound Wireless headphones.

2. **Power and Pair**
   1. To turn your Resound Wireless headphones on, press and hold the Power/Play button for five seconds until the LED flashes blue and red, indicating pairing mode. The next time you turn your headphones on, they will automatically pair to your device.
   2. Ensure your device’s Bluetooth® connection is on and select “IFROGZ Resound Wireless.” Complete any additional pairing steps based on your device. A tone will sound and the LED will remain blue when your devices are successfully paired.
   3. To turn your headphones off, press and hold the Power button for five seconds. A tone will sound and the LED will turn off, indicating that your headphones have powered off.

3. **Play Music**
   1. Press the Play button to begin playing your music.
   2. While your music is playing, press the Power/Play button quickly to pause. Press Power/Play again to resume your music.
   3. Press and hold the Volume Up + or Volume Down - button to track forward and back through your playlist.
   4. Quick-press the Volume Up + or Volume Down - button to control your audio volume.
Resound Wireless Instructions

4 Take Calls
1. Press the Power/Play button to answer an incoming call.
2. Press and hold the Power/Play button for two seconds to send an incoming call to your voicemail.
3. Press the Power/Play button during a call to disconnect.

5 Charge
To get the most out of your IFROGZ Resound Wireless headphones, we recommend charging them for at least three hours before using them for the first time. To charge your Resound, connect the micro USB end of the charging cable to your preferred USB outlet. The LED will light red while your headphones are charging, and the light will turn off when they are fully charged.
Resound Wireless Instructions

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1: This device may not cause harmful interference, and
2: This device must accept any interference received, including interference that may cause undesired operation.

NOTE: DO NOT EXPOSE THE PRODUCT TO WATER.
