

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## Wireless In-Ear Headphones

Mic · Easy Access Controls

Quick Start Guide

Altigo Wireless In-Ear Headphones have quality sound and features that keep you connected, comfortable and in control. This easy quick start guide will tell you all you need to know to get the most out of them.

### Pairing Your Altigo Headphones with Your Device

Make sure your device's Bluetooth® connection is on.

Press and hold the Power button until the light flashes red and white, indicating pairing mode. The next time you turn the headphones on you only need to press and hold the Power button for three seconds.

On your device, select "Altigo In-Ear Headphones." Complete any additional steps your device requires.

To turn your headphones off, press and hold the Power button for three seconds. The LED will flash red until they are powered off.

### Pairing Your Altigo Headphones with Multiple Devices

To pair your Altigo headphones with another device, turn your headphones off completely. Then repeat steps 2-3 above.

### Control Hub Button Functions

The control hub on your Altigo Wireless In-Ear Headphones houses all of your call and music controls.

#### Power Button

Quick press – Play/Pause/Answer call/End call  
Medium press – Voice control (Siri and Android)  
Long press – Power on/Power off/Deny call

#### Plus button

Quick press – Volume up  
Long Press – Track next song

#### Minus Button

Quick press – Volume down  
Long press – Track previous song

### Charging Your Altigo Headphones

To charge your Altigo headphones, connect the micro USB end of the included charging cable to the port on the side of the control hub. (Note: the port on the side of the control hub is covered with a removable cap that keeps dust out.) Connect the USB end of the charging cable to your preferred USB outlet. The LED will light red while the headphones are charging, and will turn off when they are fully charged.

### Rapid Charge Feature

Nothing ruins a workout like running out of battery. Altigo's "Rapid Charge" feature lets you plug in your wireless on-ear headphones for just 5 minutes for 90 extra minutes of play time and 10 minutes for 2 hours of extra play time.
